PROJECTS :

BRIGADE — place for downloading class materials

We created web app for downloading and uploading the class material . Site is very useful for my college mates and it have 27,643 views. We used html , css, javaScript . Build an API for accessing class material . We added Google analytics to track site traffic

Frameworks Used : django
DBMS Used : sqlite3
Hosting : Heroku,github pages
Site link : https://generalmadnit.github.io/

MONTRACk — money budgeting app

It helps to track all my expenses and income .
By using that data I was able to decrease my expenses.

Frameworks Used : django
DBMS Used : sqlite3
